

Sunday Trading debate – the outcome!

The recent Chamber Meet & Greet provided opportunity for local business to put forward their views on Sunday Trading. From those attending the meeting there was an overwhelming number against the proposal. Many thanks to the businesses who attended – it is important that the business community speak up regarding such important issues such as these.

The Chamber will continue to provide opportunity for local business to access information on issues that directly affect our region.

A motorcycle enthusiast complained that he couldn't decide whether to buy a bike with high top speed and poor acceleration, or one with lots of torque and fast acceleration, but a poor top speed. Eventually he decided on the second one, because it cost a lot less. After all, torque is cheap!
